

Welcome to the Research Data Management Service Group's March Newsletter

Comprehensive Data Management Planning & Services

The Research Data Management Service Group (RDMSG) is a collaborative, campus-wide organization that assists with data management and sharing plans, applying best practices for managing data, and finding data management services at any stage of the research process.

IN THIS NEWSLETTER:

Spotlight: Data Storage

From [Cornell Box](#) to the [eCommons institutional repository](#), Cornell University offers a wide variety of storage solutions that cater to different types of data. When choosing a storage solution, it is important to consider:

- The sensitivity of your data
- How you are currently using your data
- How large any individual file in your data set is likely to be
- Special performance and access needs

We have a [Data Storage Finder](#) to help you find and evaluate on-campus storage options with these needs in mind, and a [guide to data storage and backup best practices](#).

AT CORNELL

Call for Applications: [Cornell Summer Graduate Fellowship in Digital Humanities](#)

Taking place over six weeks, June 5 – July 14, 2023, Summer DH, the Summer Graduate Fellowship in Digital Humanities, supports a small interdisciplinary cohort of Cornell graduate students who together investigate approaches to digital scholarship through collaborative workshops, readings, discussion, and co-working on independent projects. The fellowship is a project of the Digital CoLab at Olin Library.

Apply by April 1; find [full details](#) here.

Sponsored by Cornell University Library & the Society for the Humanities

BEYOND CORNELL

Downloading NCBI Biological Data and Creating Custom Reports Using the Command Line

Calling biological researchers who would like to incorporate NCBI command-line clients into your workflows to access and process NCBI molecular data and metadata: the NCBI is offering a workshop for you. **April 25 at 1:00 pm** [APPLY TO ATTEND](#)

Funder and Publisher News

NIH Public Access Plan Open for Public Review and Comment

The US National Institutes of Health (NIH) has issued a public call for comment, closing April 24, 2023, on their draft [Plan to Enhance Public Access to NIH-funded Research](#). There is a [response form](#) and a helpful NIH [blog post](#) that provides background information.

In Case You Missed It

[Why use Box Departmental Folders?](#)

Part of a series about file storage at Cornell, [this article](#) looks at a way to share Box folders for a group or department that will eliminate the problem of folders vanishing when someone leaves Cornell. Want to set one up? The [Box Departmental Folders page](#) will guide you through the process.

The Data Science and Literacy Act of 2023

The [Data Science and Literacy Act of 2023](#) is proposed bipartisan legislation that would support increased access to data science and literacy education. The American Statistical Association is coordinating support and education around the bill. The act supports a voluntary program at the Department of Education through which educational entities (from elementary to two- and four-year colleges) could apply for funding to increase access to data science and literacy education.

Schedule a Consultation

RDMSG [consultants](#) are available year-round to answer questions and help with data-related problems. We can meet via Zoom, email, or phone. Send a request to rdmsg-help@cornell.edu to arrange a consultation at a time that works for you.
